Mr. Gruenberg,

Please oppose the Bank of Wal-mart. I am concerned about the potential hazard such a plan would bring to our small communities. Just as the stores have closed locally owned businesses, this large corporation will close the small community banks that have been so vital in our communities. Sadly, Wal-mart takes money out of local economies undermining their financial stability. Additionally, I am concerned about the dangerous concentration of power in a bank owned by the largest corporation in the world. Finally, Wal-mart is known to bend and even break the law for their own financial gain. Please don't place more power into the hands of this company that has already grown to monstrous size.

Thanks,  
Gwen A. Henson
